Solar Photovoltaic System – Winthrop Elementary Magnet School
Addendum No. 1

Responses to Bidders' Questions

Question 1: The rooftop solar system is about 84 KW DC?

Response 1: Yes, the solar PV system is approximately 84KW-DC.

Question 2: Winthrop Elementary school will be the owner of the system?

Response 2: The City of New London will be the system owner.

Question 3: Is this an EPC contract or installation contract with the PV system, structure and electrical design work being done by Tai Soo Kim Partners, G.R. Engineering LLC, and Facility Services & Engineering Inc.?

Response 3: All engineering and design work for the solar PV system has been completed and approved by the State of Connecticut Department of Education's School Construction Division. Approved design drawings are contained in the Bid Package. The City of New London is seeking bids from qualified contractors for the construction and commissioning of the solar PV system.

Question 4: The one-line diagram and PV system material was designed by Tai Soo Kim Partner dated 4/2014 and 1/2010?

Response 4: The electrical one-line diagram (Drawings No. PV-101) was designed and stamped by Facility Services & Engineering Inc. of Coventry, Connecticut. Please refer to the drawings included in the Bid Package.

Question 5: Is the roof contractor involved in this project which holds the Firestone warranty?

Response 5: The qualified solar PV contractor will be responsible for obtaining approvals from Firestone with regard to maintaining the roof warranty. The Bid Package contains all application documents with respect to the roof warranty.
